

# SIMPLY COLOR

V and Co.

The Ombre solids were the main focal point in this line. I wanted to explore designs using different shades of the same colors. So many ideas come to mind for quilts or apparel since ombre is a very wonderful way to play with color and the different shades just add that much more depth to your design. I believe there is real beauty in simple designs and when you incorporate different shades of the same color in one project there is a subtle radiance that can make a very simple project look breath taking. Throw in my love of vintage textiles and you get vintage and simple modern encompassed in one line!
